Steam Outage and Steam Pressure Reduction North of Campus Drive, October 12

There will be a steam outage in the buildings listed below and a steam pressure reduction to buildings north of Campus Drive in order to repair the underground steam system near the Brendan Iribe Center. Please see below for building-specific details. This outage is being performed during off-hours when the campus is closed to limit the impact to building operations and occupants.

1. Buildings with a Steam Pressure Reduction:

- All campus buildings north of Campus Drive

What to expect: Steam-fired equipment (autoclaves, sterilizers, etc.) will be unavailable during the outage. No other impacts are expected.

2. Buildings with a Complete Steam Outage:

- Wind Tunnel Building
- A.V. Williams Building
- Computer Science Instructional Center
- Brendan Iribe Center

What to expect: Heating will be unavailable in A.V. Williams, Computer Science Instructional Center, Wind Tunnel Building and the Brendan Iribe Center. In addition, the Wind Tunnel Building and the Brendan Iribe Center may notice a reduction in temperature for domestic hot water service (sinks, showers). Steam-fired equipment (autoclaves, sterilizers, etc.) will be unavailable.

Dates and times:

Monday, October 12, 2026, from 4:00 a.m. until 6:00 p.m.

Work performed by:

Facilities Management Department of Planning and Construction (P&C)
Honeywell

Please share this notice with anyone who may be impacted.
