CUSTOMER RESPONSE CENTER

Animal Sciences / Agricultural Engineering Building, Electrical Outage, October 13

There will be a planned electrical outage at the Animal Sciences / Agricultural Engineering Building that may impact normal electricity to outlets and lighting, HVAC services for heating and air conditioning, elevator service, fume hood availability, and lab ventilation during the outage. Outage impacts will vary depending on the wing of the building and are outlined below. Outage work performed is part of the transition to the new campus chilled water system.

Dates and times:

Tuesday, October 13, 2026, from 4:00 a.m. until 6:00 a.m.

Work performed by:

Facilities Management Department of Planning and Construction (P&C)

Facilities Management Department of Operations, Maintenance, and Utilities, Electric Shop

Location:

Animal Sciences / Agricultural Engineering Building

Wings 1, 4, 5**What to expect:**

- Normal electrical power to lights and outlets will be unavailable for use during the outage.
- Elevators will be out of service and unavailable during the outage.
- Ventilation, lab exhaust, and fume hoods will not be usable and will be unavailable.
- **Lab users should finish fume hood work, close chemical containers, and close fume hood sashes before leaving on Monday, October 12. If you notice an unusual odor or anything that appears hazardous when returning, leave the area and contact ESSR at (301) 405-3960.**

- **Lab rooms with fume hoods should not be entered until 8:00 a.m. in order for any escaped fumes to ventilate out of the impacted lab rooms following the outage.**
- Heating, air conditioning, and cooling will be unavailable during the outage.
- Emergency power will be available during the outage but may experience a brief, several-second interruption at the start and end of the outage.
- Occupants may notice notifications or sounds from the building's fire annunciator panel.

Wing 2

What to expect:

- Normal electrical power to lighting and outlets, and emergency power, will not be impacted by this outage.
- Reheat, which is supplied from Wing 3, will be unavailable during the outage. HVAC will make adjustments to keep areas as comfortable as possible.

Wing 3

What to expect:

- Normal electrical power to lighting and outlets, and emergency power, will not be impacted by this outage.
- Air conditioning and heating will be unavailable during the outage.

Please share this notice with anyone who may be impacted.
