

Security Egress for Individuals with Disabilities

08.71.53

Description:

The purpose of the section is to highlight the current applicable UMCP Design Standards identify hardware criteria related to security egress for accessibility.

Related Sections:

- 08 10 00 Doors and Frames
- 28 16 00 Intrusion Detection

Effective Date:

January 1, 2016

Applicable Standards:

- ADA Standards

General Requirements:

All facilities that have handicap door openers have the electronic panic bar. The handicap door opener is activated by the handicap door switch.

- Install an electric panic bar on each door equipped with a handicap door opener.
- Interface the door opener with the electric panic bar.
- When required by code, incorporate standard 4 ½" square style metal handicapped activation switch plate.
Option: Where available wall space is limited, the use of 2" wide narrow style metal handicapped activation switch plates are acceptable for incorporation within storefront or metal door frame assemblies.
